

OCEAN Independence appointed as worldwide central sales agent for 35m MY Findings

OCEAN Independence is delighted to announce its appointment as worldwide central sales agent for the 1991 35m Euroship/Oceanco motor yacht, "FINDINGS".

Built in 1991 this superb tri-deck, five stateroom modern yacht is maintained in first-class condition and is available at an asking price of €6m.

Currently cruising in the Caribbean but returning to the Mediterranean in April 2006, MY Findings has worldwide cruising capabilities.

One of more than thirty new central listings in the past six months since OCEAN Independence's corporate relaunch, MY Findings can be discussed with brokers in all ten of the company's worldwide offices, giving potential buyers the opportunity of liaising with a local representative on their purchase.

Boasting a knowledge-base of highly experienced industry personnel and a strong track record of effective sales, management and negotiation, the OCEAN Independence brokerage teams are renowned for their high level of customer care.

With many more central listings in the pipeline and soon to be announced, OCEAN Independence is fast emerging as a force to be reckoned with in the global yachting market.

ENDS.
